## TÂCKLE TALK

## THE TACKLE PROJECT

The objective of this project is to develop digital evaluation tools for Secondary schools to self-evaluate their academic and career guidance program, to develop an academic and career guidance plan to tackle new challenges and offer an online training module for teachers, guidance practitioners to work with the TACKLE Toolbox and to support teachers in their role to support students, with digital tools and resources, in this unprecedented time.

Tackle is the collection of tools necessary to complete a task as well as the verb to mean the determined effort to deal with a complex problem.

The desired impact of the TACKLE project is for the schools using the TACKLE toolbox to provide career education and guidance activities that support transitions to further education, training and work from Secondary Schools.

Co-funded by the Erasmus+ Programme of the European Union

## Toolbox

The Checklist

Guidance Action Plan & Resource

Training module

The TACKLE project also addresses Early School Leaving with a coherent and school community-wide guidance action plan implemented by trained professionals.

The TACKLE toolbox will relevant for schools to employ beyond the pandemic and to strategically implement guidance actions, be guiding schools, that tackle the complexities and supporting their students on their education and training pathways.

This project has been funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
